

REMARKS

Priority

Applicant has amended the priority statement in the specification to accurately reflect the chain of priority for the instant application. This application is a continuation-in-part application of PCT/US02/00476. The Examiner has stated that PCT/US02/00476 "is a CON" of 09/771,669. (See Office Action, page 8.) PCT/US02/00476 is a continuation-in-part application of U.S. Application No. 09/771,669, as indicated on the front page of WO 02/060393. Applicant's Transmittal Letter To The United States Receiving Office (Exhibit 1) indicates that the Applicant listed the '669 application as a related application and checked the box that states "The present international application ... contains additional subject matter not found in the prior U.S. application(s) identified in paragraph C..." Box VI of the PCT Request (Exhibit 2) also claimed priority to the '669 application. Therefore, PCT/US02/00476 is a continuation-in-part application of the '669 application.

The Examiner has stated that Continuity/Foreign Data Report for the '669 application does not indicate any reference to 09/056,707 (see Office Action, page 8). Applicant believes this is in error. Applicant directs the Examiner's attention to the Related Application Data on the front page of U.S. Patent No. 6,984,667. The '667 patent is a continuation-in-part application of U.S. Application No. 09/056,707, now U.S. Patent No. 6,689,748. Applicant also directs the Examiner's attention to the Bibliographic Data Sheet dated March 7, 2005 on the Patent Application Information Portal ("PAIR") (Exhibit 3). The Data Sheet states "This is a continuation-in-part / divisional application based on United States Serial No. 09/056,707, filed 04/08/1998, now United States Patent No. 6,689,748."

Based upon the above amendments and remarks, Applicant believes the priority claim of the instant application is now correct.

Claim Amendments

Applicant has canceled claims 39-44 without prejudice or disclaimer and added claims 45-63. Support for these claims can be found throughout the specification. Specifically, support for claim 45 can be found throughout the specification, and, for example, in paragraphs [013] and [024]. No new matter has been added by these amendments.

Claim Rejections – 35 U.S.C. § 112, 1st Paragraph

The Examiner rejected claims 39 and 42-44 under 35 U.S.C. § 112, 1st paragraph, as allegedly containing new matter. The Examiner stated that the amendment to now-canceled claim 39 was rendered moot by the previous amendment that replaced “protecting” with “treating.” (*See* Office Action, page 9.) However, the Examiner maintained the rejections in dependent claims 43 and 44 (both now canceled) because both claim 43 and 44 recited the term “protecting.” (*See id.*) None of new claims 45-61 recite the term “protecting”; each new claim is directed to either “[a] composition for treating...” or “[a] method of treating...” Applicant believes the new claims satisfy the requirements of 35 U.S.C. § 112, 1st paragraph.

The Examiner also rejected claim 42 under 35 U.S.C. § 112, 1st paragraph, as allegedly not complying with the written description requirement and containing new matter. (*See id.*) The Examiner alleged that the application did not teach the claimed ranges. (*See id.*) Applicant has canceled claim 42. Claims 50, 54-55, 57, and 59 include ranges that correspond to the ranges in the specification. Support for the claimed ranges can be found in paragraphs [034] and [037]. Applicant believes these new claims satisfy the requirements of 35 U.S.C. § 112, 1st paragraph.

Based on the foregoing amendments and remarks, Applicant believes the amended claims comply with 35 U.S.C. § 112, 1st paragraph.

Claim Rejections – 35 U.S.C. § 112, 2nd Paragraph

The Examiner rejected claim 42 under 35 U.S.C. § 112, 2nd paragraph, for purportedly broadening the scope of the claim from which it depended (now-canceled claim 39). Claim 42 has been canceled. Applicant believes the amended claims fully comply with 35 U.S.C. § 112, 2nd paragraph.

Claim Rejections – 35 U.S.C. § 103(a)

The Examiner has rejected claims 39-41 as allegedly being unpatentable over cited Lindsberg et al. (U.S. Publication No. 2006/0210551). (*See id.*, page 6.) As noted by the Examiner, the earliest filing date that Lindsberg et al. could claim is February 13, 2003. (*See id.*, page 11.) Applicant has cancelled claims 39-41. However, to the extent the Examiner may apply this prior art rejection to the new claims, because Applicant has amended the priority claim to correctly claim priority back to 1998, Lindsberg et al. cannot be prior art to the instant claims. Applicant respectfully requests that the rejection be withdrawn and not applied to the new claims.

CONCLUSION

Applicant believes the rejections maintained in the Office Action have been overcome and that the application is in condition for allowance. Applicant respectfully requests that a timely Notice of Allowance be issued.

A two-month Petition for Extension of Time is filed with this submission. The Director is hereby authorized to charge Deposit Account No. 08-0219, under Order No. 2003133.125US11, the fee of \$245.00 pursuant to 37 C.F.R. § 1.17(a).

The Director is also hereby authorized to charge Deposit Account No. 08-0219, under Order No. 2003133.125US11, the fee of \$405 filed herewith pursuant to 37 C.F.R. § 1.17(e).

Applicant believes no additional fees are due with this Request for Continued Examination and Response to Final Office Action. However, if such a fee is due, or a credit is owed, the Director is hereby authorized to make them to our Deposit Account No. 08-0219, under Order No. 2003133.00125US11.

The Examiner is encouraged to call the undersigned at the telephone number given below to move this application towards allowance.
